Dear Colleagues,

We are proud and happy to welcome you in Vilnius, the Capital of Lithuania. This is going to be the first ESTSS Conference in Eastern Europe. Complicated history of this region will be an inspiring background for professional meetings, establishing new contacts, and an outstanding venue for meeting old friends.

ESTSS conference will reflect and represent research and practice diversity of European psychotraumatology. ESTSS conference organizers invite participants of the Conference to discuss the social context of trauma, including acknowledgement of trauma, social support, and linking traumatic stress field among different professionals and educating society about trauma and recovery.

The Conference will also focus on clinical practice. Although we know about remarkable resilience of majority of survivors, the burden of PTSD in Europe and around the globe is growing. With natural disasters, military conflicts, interpersonal violence, accidents and other traumatic events happening around the world there is a huge responsibility for professionals to provide the best care for trauma survivors suffering from stress-related disorders.

Dr. Evaldas Kazlauskas
Chair of ESTSS Vilnius 2015 Conference
Dear Colleagues,

On behalf of the ESTSS’ Board, I would like to welcome all of you in our biannual conference wholeheartedly. Vilnius, the capital of Lithuania has hosted two of our Board meetings as well as the 2013 ESTSS Strategic Planning Meeting which gave shape to the vision of my presidential term. Throughout this period, we have been busy fine-tuning the transformation in the governance structure of ESTSS. This process of transition – from a society built around voluntary individual membership to one of an umbrella organization for regional (mostly national) trauma societies – will hopefully facilitate professional collaboration all over the continent. After advisory exchanges with member society leaderships, the ESTSS Board has come up with a concrete proposal for a constitutional amendment, which will be presented to approval in the General Membership Meeting during this conference.

Since its foundation, ESTSS has embodied an effort aimed at nurturing the common ground in European psychotraumatology. Synchronization of knowledge and experience between all participants is key to achieve these ends, also as an inspiration for the future through scientific and clinical creativity. The ESTSS biannual conferences have and will continue to be one of the main carriers of this historical process. The European Journal of Psychotraumatology (EJPT), the official scientific organ of the Society, is celebrating its 5th anniversary.

We thank to Evaldas Kazlauskas (Chair of the Conference), the local organization committee, and the Lithuanian Society for Traumatic Stress Studies (LSTSS) for the immense work to make this meeting a success.

On behalf of the Board of ESTSS, I wish you a pleasant stay in Vilnius and a productive meeting. Thank you for coming and sharing the spirit of collaboration with us.

Prof. Dr. Vedat Şar
President of ESTSS (2013-2015)
Dear Colleagues,

Vilnius University is proud to host the XIV Conference of European Society for Traumatic Stress Studies. The meeting of the leading experts of psychotraumatology will contribute to the dissemination of the latest developments in research and practice in the field of traumatic stress studies.

Vilnius University is one of the leading institutions of higher education in Eastern and Central Europe. With a more than four centuries history, the University is a unique witness to the history of the country, closely related with the periods of growth and decline and traumatic history of Lithuania. Despite all challenges and oppression we can also witness a remarkable resilience of the University and its community, which managed to provide leadership and innovations for the society.

Nowadays the University is in the midst of development of new structures for stimulating research and ensuring high position of the University in the European and global education and research area.

I wish you a successful and inspiring conference.

Prof. habil. dr. Artūras Žukauskas
Rector of Vilnius University

Conveniently located near the city’s historic and business districts, this Vilnius hotel overlooks Old Town and the river. The 291 comfortable rooms include Free high-speed, wireless Internet, and the on-site Riverside Restaurant serves international specialities while the hotel bars provide creative cocktails and light snacks. Guests can also enjoy the fitness centre, sauna and beauty salon, or host events in 17 well-equipped meeting rooms.

Address:
Konstitucijos pr. 20, Vilnius
Lithuania

Vilnius University (VU) – the oldest and largest Lithuanian higher educational institution. It was founded at a time when the reformation movement was active in Lithuania and Jesuit monks were invited to help fight the mood of reformation. Jesuit monks were quick to take over education. In 1569, they established a college and in 1579 the University of Vilnius was born.

Address:
Universiteto str. 3, Vilnius
Lithuania
At the Conference venue no smoking is allowed. Delegates are kindly requested to keep their mobile phones turned off while attending the scientific sessions in the meeting rooms. Your cooperation will be appreciated. Unauthorized recording and photography are not allowed.

**Free Internet Access**

Wireless internet access is available throughout the Conference venue and Vilnius University.

**At Vilnius University:**
Network: estss2015
Password: estss2015

**At Radisson Blu Hotel:**
Password: 1234

**Baggage Storage**

For your convenience baggage storage will be arranged on 13th of June. If you wish to leave your luggage before entering scientific sessions go to registration counter and our staff will take care of your belongings.
Registration

RADISSON BLU HOTEL (MAIN VENUE)

The registration and hospitality desk is located at the main entrance of Venue entrance.

* Delegates attending preconference workshops and main ESTSS program do not need to register at Radisson Blu Hotel.

All Conference materials and documentation will be available at the Conference registration counter. The Conference staff will be pleased to help you with all the enquiries regarding registration, Conference material and program. Please do not hesitate to contact the staff members if there is anything they can do to make your stay more enjoyable.

During the opening hours ESTSS 2015 Secretariat can be reached at:

Ms. Monika Rankelyte (project manager)
+370 6 1216 586

Ms. Justina Zmitruleviciute (delegate manager)
+370 6 1162 270

Official Language

The official Conference language is English. No translation will be provided.
Name Badges

All registrants have been issued name tags, which must be worn to gain admission to the Conference facilities and social program. Please note that admission to scientific sessions is strictly restricted to participants wearing their badges. All participants are kindly requested to wear your name badge during Welcome reception. Name tags are colour-coded as follows:

Currency

The official currency in Lithuania is Euro. You can exchange your foreign currency at Lithuanian banks, exchange bureaux. Credit cards are accepted in most shops, hotels and restaurants. You will find a cash dispenser on nearly every corner and they are accessible 24 hours. Credit cards like Visa, MasterCard are fitly accepted.

All official prices such as Conference fees, social events, etc. set by ESTSS are quoted in Euro. Payments in other currencies will not be accepted.

Insurance

The Conference fee does not include insurance. All participants are advised to arrange their own insurance. Health and accident insurance is recommended and has to be purchased in your country of origin.

Lunch

June 11, 2015 | 13:45 – 15:00  
June 12, 2015 | 13:45 – 15:00

Conference lunch will be served for all our guests at the restaurant Riverside (see Venue map) and in Beta hall (see Venue map). Our staff shall direct you to both catering places.

Pre-Conference Workshop Lunch
(for full day pre-conference program attendees)

June 10, 2015 | 13:00-14:00

Lunch will be served at the buffet in Vilnius University. Look for indicative signs to find buffet.

Coffee Breaks

June 11, 2015 | 11:45 – 12:15  
June 12, 2015 | 11:45 – 12:15  
June 13, 2015 | 11:00 – 11:30
Coffee, tea and other refreshments will be served in the main lobby. Two coffee stations will be located in the area for your convenience, in case of queues at the certain station, please look for less crowded ones.

**Book of Abstracts (PDF File on ESTSS Website)**

All abstracts are published in the Book of Abstracts and stored as PDF file in ESTSS website. Conference participants may copy materials for their personal use only, but further copying for sale or for any other commercial purpose is allowed with a prior written permission of the editor only.

**Program Changes**

The organisers cannot assume liability for any changes in the Conference program due to external or unforeseen circumstances. All chairpersons are kindly asked to be in contact with Organizing Committee for any changes in the program.
Oral Presentations

All meeting halls will be equipped with PC, LCD projector and microphones. The date/hour/room of your presentation(s) is available in the Program. If you are using a slide presentation (Power Point or Prezi) make sure to double check your presentation before your session starts.

The duration of each oral presentation is 15 minutes. Presenters are kindly asked to arrive to their auditorium at least 30 minutes prior to the beginning of the session.

Delegates who wish to use their own computer have to inform ESTSS secretariat before their session starts because some technical changes have to be made.

If any assistance is needed during your presentation look for ESTSS volunteer for instant help. At least one volunteer is in the room at any given time.

Poster Presentation

**June 12, 2015 | 15:00 – 16:00**

Printed posters should not exceed: 90 cm x 120 cm (35,5 in x 47,24 in), recommended poster size is A0. All posters must be printed in vertical layout. Posters will be displayed at the Hotel Lobby area and must be affixed no later than 10:00 in the morning. Each poster board will be marked with the number assigned to each abstract. Authors are requested to affix their posters themselves. Material for mounting a poster to the poster board will be supplied by the Conference Secretariat. Please, ask the Conference staff for any assistance.

At least one author of each poster should be present for discussion and questions during the posters session starting from 15:00 on June 12.

All posters must be removed no later than 18:00 on June 12. Posters not removed by this time will be removed by the Conference staff. The ESTSS secretariat assumes no responsibilities for the condition of posters not removed by the presenter.
**Opening of the Conference**

**June 10 | 19:00–21:00**  
**Location | Alfa hall, Radisson Blu Hotel**

Welcome remarks

**ESTSS Awards**  
- Young Mind in Psychotraumatology Award - dr. Mirjam Nijdam  
- The Wolter de Loos Award for Distinguished Contribution to Psychotraumatology in Europe - dr. Stuart Turner

Keynote address

**Welcome Reception**

**June 10 | 21:00**  
**Location | Lobby of Radisson Blu Hotel**

Opening reception is included into the Conference fee for Conference participants and accompanying guests.

**Young Minds Party**

**June 11 | 20:00**  
**Location | Bar and Restaurant Floor**  
**Address | Vilniaus str 33**

Young minds party is 14.99 Euro per delegate.

Young minds party fee includes:  
- Delightful concert by Lithuanian singer and psychologist Egle Sirvydyte!  
- 2 drinks per person (wine, beer, coffee or soft drink)
Gala Dinner

June 12 | 19:00
Location | Courtyard of Vilnius University
Address | Universiteto str. 3

ESTSS organizing Committee requests the honour of your presence at the Gala dinner in the Grand Courtyard of the Vilnius University. Vilnius University is a complex formed over several centuries. As a result, Gothic, Baroque and Classical styles can be identified while visiting VU. Total of thirteen internal courtyards, arcades and galleries inject even more colour into the building! The courtyards are named after famous graduates and professors of the university; commemorative plaques in their honour can be seen in the Grand Courtyard.

Conference dinner is 40 Euros per delegate. All delegates and accompanying guests may buy dinner tickets online or at the hospitality desk located next to the registration counter.

Gala dinner fee includes:
- Vilnius University Chamber orchestra performance before dinner
- Special Gala dinner with traditional Lithuanian food
- All dinner guests will be able to see and participate in making traditional Lithuanian cake – Šakotis
- Jazz band performance during dinner
EXCURSIONS

We will run a Hospitality Desk throughout the Conference. ESTSS 2015 Conference Secretariat team is more than happy to assist you with all the questions and precise information with regard to all options of possible excursions.

Below you will find short descriptions of the tours to be held during the Conference.

Tour to Kaunas

June 11 | 09:00

- Visit to Pažaislis Monastery* - the masterpiece of Baroque architecture
- Walk in the Old Town of Kaunas
- Stop at the panoramic view point of Kaunas platform
- Visit Čiurlionis Art Museum (or Devil’s Museum) **
- Stop for lunch and Lithuanian home

Duration: 8-9 hours

Visit to the Palace of the Grand Dukes of Lithuania

June 11 | 10:15

- Learn about the history of Lithuania, its rulers and their family relations with the other European monarchies as well as their secret love affairs.
- See the historical and architectural development of the palace by highlighting the ancient ruins still in place and the excavated artifacts
- Visit the ceremonial halls, which have been reconstructed to show the evolution of architectural styles – from the late Gothic to the Renaissance to the early Baroque
- Discover the special Treasury Hall

Duration: 1.5-2 hours
Jewish History in Vilnius
June 12 | 10:15

- Learn about the Jewish history in Lithuania and Vilnius
- Walk in the former Bigger and Smaller Ghettos of Vilnius
- Find many monuments and memorial plaques reminding us about the Jewish heritage in Lithuania
- Visit the synagogue*
- Drive to the Jewish cemetery* where the Gaon of Vilnius was buried

Duration: 2.5 - 3 hours

Soviet History in Vilnius
June 12 | 14:30

- Visit the Museum of Genocide Victims - the former KGB prison* (premises where death sentences were implemented, modern exhibitions telling about the loss of independence in the middle of the 20th century, repressions by Soviet authorities, and the self-sacrificing and persistent fight for independence).
- Parliament barricade memorial
- The TV Tower (memorial in front of the TV Tower where the bloody Soviet military attack on the freedom defenders took place on January 13, 1991; the monument for Freedom; the museum on the ground floor of the tower)

Duration: 2.5 - 3 hours

Tour to Trakai
June 13 | 11:00

- Drive to the medieval capital of Lithuania – Trakai which lies in the National and Historical park of Lithuania, famous for its unique landscape enriched with 32 lakes and visit will visit the 15th century Castle Museum offering insights into Lithuania’s grand past and exhibiting archaeological finds, old maps, paintings, guns, armours and treasures.
- Admire an amazing combination of landscape and medieval architecture during a pleasant boat sail on Galve Lake.
- Lunch at the traditional Karaite ethnic minority restaurant.

Duration: 5 hours

PRE-CONFERENCE WORKSHOPS

10 June 2015, Wednesday

Venue | Vilnius University (Universiteto str. 9)
Registration: 08:00–15:00
Lunch: 13:00–14:00

PRE-CONFERENCE WORKSHOP

Integration Makes Sense: Getting to Know Brief Eclectic Psychotherapy for PTSD (BEPP)
A full-day workshop by dr. Mirjam Nijdam, prof. dr. Berthold Gersons, and dr. Miglė Dovydaitienė

June 10 | 10:00–17:00
Location | Room 403, Vilnius University

BEPP is a comprehensive treatment for PTSD that integrates effective interventions from various psychotherapy schools in a logical sequence. Several randomized controlled trials have proven its efficacy. The difference between BEPP and other evidence-based PTSD treatments is that BEPP focuses on healthy expression of avoided emotions like sorrow and anger and that its aim is to learn from the trauma. The losses of trauma bring forth a lasting change, and the message in BEPP is that one becomes ‘sadder and wiser’ and finds a new equilibrium with the world.

BEPP consists of 16 weekly sessions. Psychoeducation helps patients understand the relationship between the traumatic event(s) and their PTSD symptoms. The following five sessions are aimed at expressing emotions to process the trauma using imaginal exposure, mementos of the trauma and letter writing. Traumatic events also challenge trust in oneself, others, institutions, or society. Therefore, the following sessions are meant to give meaning to the traumatic experiences by looking at the consequences and by integrating a changed view of oneself and the world. BEPP ends with a farewell ritual.

This workshop presents an overview of BEPP alternated with Lithuanian and Dutch case examples and includes practicing elements of the protocol.
PRE-CONFERENCE WORKSHOP

Narrative Exposure Therapy (NET): An Evidence Based Treatment for Multiple and Complex Trauma
A full-day workshop by dr. Ruud Jongedijk, dr. Gerdie Eiting, and dr. Tobias Hecker

June 10 | 10:00–17:00
Location | Room 209, Vilnius University

Narrative Exposure Therapy (NET) is an evidence-based approach for the treatment of trauma-related mental disorders. Given its focus on the autobiographical elaboration of traumatic experiences, NET is particularly suited for populations affected by multiple traumatic experiences like sexual, familial or organized violence. To date, there is good evidence that NET is an effective treatment approach with support from 18 RCT’s (N=950) with proven efficacy both, in resource poor contexts and in Western clinical settings. NET is well-tolerated and straightforward. It can be taught to non-expert practitioners, which makes NET an asset in low-income countries.

Working through the person’s biography in NET facilitates the recognition of interrelated emotional networks of events in cases of multiple and complex trauma. This helps to build episodic memory, fosters a sense of identity and gives deep personal understanding of schemas and social emotions that have evolved across the lifespan. Narrative Exposure allows meaning making, testifying to human rights violations and regaining dignity.

NET is a very well tolerated trauma focussed therapy and is a very welcome alterative for eg. Imaginary Exposure or EMDR. In this workshop the principles of NET and its practical application will be explained and demonstrated by four scholarly NET expert trainers. There will be special attention to dissociation and to the recently developed NET for Forensic Offerders, FORNET, which addresses both fearful traumatic experiences and perpetrated violence and aggression. The theory and treatment of the lust for hatred, agression and destruction („agressive appitite“) will be explained.

The workshop is suited for clinicians, who want to extend there treatment options for traumatized patients. There will be some theory, but above all a lot of demonstration, explanation and excersise.
PRE-CONFERENCE WORKSHOP

Psychodynamic Psychotherapy with Trauma Victims: Theory, Technique, Evidence
A full-day workshop by dr. Lutz Wittmann, dr. Robert Bering, and dr. Roderick J. Ørner

June 10 | 10:00–17:00
Location | Room 407, Vilnius University

Trauma has been a central concept for psychodynamic theory and practice for more than 100 years resulting in strong mutual influences between psychotraumatology and psychodynamic therapy. In this workshop, psychodynamic concepts and techniques will be illustrated avoiding school-specific terminology and evaluated for their evidence base. Prominent examples are the interaction of trauma and the personality of the trauma survivor and his relationship with the therapist. Using information from patient-therapist interaction for individually tailoring interventions and the role of therapists’ emotional reactions will be further topics. Large room will be given for participants to discuss cases of their own clinical work with experienced psychodynamic trauma therapists. Possibilities of integrating psychodynamic approaches into non-psychodynamic trauma therapy will be illustrated.

PRE-CONFERENCE WORKSHOP

Multifamily Therapy (MFT) with Families after Traumatic Events
A full-day workshop by dr. Trudy Mooren and dr. Julia Bala

June 10 | 10:00–17:00
Location | Room 308, Vilnius University

Psychotrauma results in consequences that go beyond the individual. Long lasting cumulative (traumatic) stress and chronic PTSD of (a) family member(s) can seriously undermine the family routines, relations, patterns of communication and limit the parental functioning, leading to psychosocial difficulties of the children. The posttraumatic family reorganization can facilitate or hinder the functional adaptation. Intimate family members are part of the adaptation process that violence-stricken people go through. Similarly, social support is one of the crucial factors in ameliorating the harm caused by violence.

Multifamily therapy (MFT) is a system-oriented intervention that aims to facilitate adequate functioning in couples, parent-child dyads or families. It is both a setting as well as a method. MFT is characterized by bringing together 6-8 families (or systems) in open or closed group-settings. The families share common difficulties e.g., coping with the relational consequences of PTSD by ex-military or having a child with internalizing or externalizing problems. One
of the core principles is that families benefit from other families best; the task of the MFT-facilitator is to enhance interaction and guide experimentation with behavioral alternatives whenever possible. Activities employed are playful as children are involved. There are numerous possibilities to work with subsystems, e.g., families, father-son or mother-daughter dyads etc.

MFT is implemented in Foundation Centrum ’45, the Netherlands for treatment of family consequences of trauma. Since its introduction within the work of the presenters, it has been employed in their clinical practice with refugees and asylum seekers, war veterans, in prevention program in collective centers for asylum seekers and in conflict area.

The MFT as applied in Centrum ’45 is mentalization based focused on improving the sensitive parenting relationships between parents and children and strength based: empowering families to cope with traumatic experiences and their consequences. In this pre-conference workshop MFT for traumatized families will be introduced, illustrated and explained with regard to its core principles. Examples from practice will be shared during this workshop. Participants will learn the basic elements of MFT, and have a clear idea of how to implement the intervention.

**PRE-CONFERENCE WORKSHOP**

**Screening and Prevention for Children and Youth after Trauma and Violence**

ISTSS-sponsored half-day workshop by dr. Nancy Kassam-Adams, and dr. Grete Dyb

**June 10 | 14:00–17:00**

**Location | Room 214, Vilnius University**

Exposure to acute, potentially traumatic events is an unfortunately common experience for children and youth in many countries. Children may be affected by community-level events, such as disasters, violence, or terrorism, and by events that impact one child or family at a time, such as injury, serious medical events, residential fires, or exposure to violence. Mental health providers are often asked to respond, either to assist individual children or to help an entire community respond to a larger event. Yet the research and evidence base to support such efforts has not always been clear. This ISTSS-sponsored workshop will present a practitioner-oriented overview of child responses to acute trauma with implications for child health and development, and of the current state of research and practice in this area. We will focus on models for screening, outreach, and prevention efforts after community-level and individual events, and on practical considerations in implementing such efforts. Workshop participants will get hands-on practice designing screening and prevention efforts in challenging case scenarios.
KEYNOTE SPEAKERS

KEYNOTE LECTURE

Refugee blues: social and legal pitfalls for asylum seekers in Europe
Stuart Turner, MA, MD, FRCP, FRCPsych

June 10 | 19:00–21:00
Location | Hall Alpha, Radisson Blu

About the speaker.
Stuart Turner MA, MD, FRCP, FRCPsych is a consultant psychiatrist, who has specialized in helping people deal with adversity throughout his professional career (disasters, torture and other trauma). He was Chair of European Trauma Foundation (precursor to ESTSS) and is Past President of both ESTSS and ISTSS. He has been Community Campus Dean (UCL Medical School); Trustee of Medical Foundation for Care of Victims of Torture, Redress, Refugee Therapy Centre, & Centre for the Study of Emotion and Law (which he cofounded); and is associate editor of European Journal of Psychotraumatology (EJPT).

Lecture Overview
The news headlines are currently full of stories about migrants travelling across the Mediterranean Sea looking for refuge in Europe, with many dying in the course of their journey. Europe takes relatively few refugees (in comparison with the large receiving countries such as Pakistan and Iran) but this has become a highly politicized issue. Attempts to prohibit travel with increasing visa and other restrictions have probably had the perverse effect of encouraging the market in illegal pathways, thereby making the process much harder to manage. People seeking asylum in Europe often have to go through labyrinthine legal processes. Delays and displacement, while they wait, stand to worsen their mental health and are sometimes part of a deliberate policy of deterrence. Some face positive discrimination and harassment. When their cases finally come to adjudication, there are specific pitfalls, many of which stand to discriminate against those with trauma histories. Asylum seekers seldom possess objective evidence of persecution. Decisions about status are therefore often made solely on the basis of what is effectively a trauma narrative, with judgments on credibility made by psychologically naive decision makers, using criteria often not supported by scientific evidence. In this presentation, some of these social and legal pitfalls will be reviewed, along with research findings that might help achieve a more just decision making process.
KEYNOTE LECTURE

You are not alone! The power and pitfalls of social contexts in PTSD
Andreas Maercker, PhD, MD

June 11 | 09:00–10:00
Location | Hall Alpha, Radisson Blu

About the speaker.
Andreas Maercker, PhD, MD, completed his medical and psychological education in Halle/Saale and Berlin. He received his MD at Humboldt University and his PhD at Max Planck Institute for Human Development in Berlin. In 1999, he became Professor of Clinical Psychology and Psychotherapy at the University of Technology in Dresden, where he directed the Posttraumatic stress disorder (PTSD) research and treatment center. In 2005 he was appointed as chair and full professor of Psychopathology and Clinical Intervention at the University of Zurich. He is co-director of the Institute’s outpatient clinic services. Professor Maercker is or has been principal and co-investigator in numerous national and international studies in traumatic stress research, clinical gerontopsychology, and internet-assisted mental health and has published more than 200 peer review articles. He authored or edited 14 scientific or therapeutic books. Since 2011 Dr. Maercker is chair of the working group “Disorders specifically associated with stress” at WHO’s ICD11 development. Keywords characterizing the expertise: PTSD, stress response syndroms, lifespan developmental psychopathology, treatment, e-mental health, crosscultural clinical psychology.

Lecture Overview
Traumatic experiences hurt individuals as well as families, groups or communities. Usually, the individual is in the focus of psychotraumatology – not at least because therapists, counsellors and mental health professionals usually work with individual clients. This keynote lecture provides a broader picture of trauma sequelae. Based on a socio-interpersonal perspective on PTSD, various facets of social affects, close interpersonal relationships and distant social context, e.g. culture and society, are illustrated by examples of recent European and international research. The lecture emphasizes how social contexts may facilitate but also how they impede recovery. Why is this relevant? Treatment may not be entirely successful and meaningful, if we neglect our clients’ life story and their historical and social backgrounds in service delivery. We know that still up to 40% of our traumatized individuals do not or only partly benefit from our individualized PTSD therapies. Current research findings suggest that the inclusion of the different social and cultural contexts in PTSD research and treatment should be further promoted.
KEYNOTE LECTURE

Trauma and Society: Why Social Forces are Important for Trauma Response
Richard Bryant, BA (Hons), MPsych, PhD, FAPS

12 June | 09:00–10:00
Location | Hall Alpha, Radisson Blu

About the speaker.
Richard Bryant, BA (Hons), MPsych, PhD, FAPS. He is a Scientia Professor in the School of Psychology at the University of New South Wales, Sydney. He is Director of the UNSW Traumatic Stress Clinic. He has won numerous research awards, including the International Society of Traumatic Stress Studies Robert Laufer Award, the Australian Society of Psychiatric Research Founders Medal, and the Australian Psychological Association's Lifetime Achievement Award. His research has focused on understanding and treating acute stress disorder, and has conducted many experimental, longitudinal, and intervention studies of acute traumatic stress. He has served on both the DSM5 and ICD11 work groups that have written the traumatic stress diagnostic guidelines. He has published over 410 peer reviewed journal articles, and 60 book chapters.

Lecture Overview
People typically experience trauma and its aftermath in social contexts. We are beginning to be more aware of how social factors impact on how we experience trauma, how trauma influences our social behavior, and how we manage its effects. This overview will present recent data on social attachments are affected by trauma, and also how activating our attachments can have overcome trauma. This will be addressed at both the individual level of attachments as well as using social network analysis to understand how entire communities interact after trauma. Understanding the impact of society across cultures is also pivotal in trauma response because of fundamental differences that can exist between western and nonwestern societies. Although we often generalize from our knowledge from western research to all societies, recent evidence indicates this may not be justified. The distinction between individualistic and collectivist societies impact on how people process and manage trauma, and we need to consider this variable in how we develop models of trauma response and treatment programs.
INVITED ISTSS PANEL

Prevention and public health approaches to trauma and traumatic stress
June 11 | 15:00–16:00
Location | Hall Alpha, Radisson Blu

Panel members: Miranda Olff (Chair), Grete Dyb, Kathy Magruder, Nancy Kassam-Adams

Overview
This panel, organized by ISTSS, will address prevention and public health approaches to trauma and traumatic stress. The panel will summarize key findings in the recently completed report of the ISTSS Task Force on Trauma and Public Health, and discuss implications for research, practice, and policy. Based in the prevention model presented in this report, panelists will also highlight current progress and challenges in designing and implementing trauma-informed services, secondary prevention, and early intervention for individuals and communities exposed to a range of types of trauma. The panel will invite audience discussion of the implications of a public health approach, and a prevention perspective, for responses to trauma in Europe and the rest of the world, and for collaborative efforts among traumatic stress societies.

INVITED ESTSS PANEL

Trauma treatment across Europe: where do we stand now?
June 12 | 16:15 – 17:45
Location | Hall Alpha, Radisson Blu

Panel members: Berthold Gersons (Chair), Vittoria Ardino (Italy), Jana Javakhishvili (Georgia), Evaldas Kazlauskas (Lithuania), Mariel Meewisse (The Netherlands), Dorota Merecz-Kot (Poland), Rita Rosner (Germany), Ulrich Schnyder (Switzerland)

Overview
The positive increase of Societies for Traumatic Stress under the leadership of ESTSS must hopefully reflect an increase and good availability of trauma treatment in Europe. The panel will focus and the spread and availability of the many developed trauma-treatments. Also attention will be paid to the wide
variety of treatment modalities which make choices difficult and can stimulate competition. In Europe we are also confronted with many different groups with posttraumatic problems; from childhood sexual abuse to survivors of war, from police officers to refugees, from disaster victims to traumatic grief after terrorist attacks, etc. Key figures of the trauma community in Europe will discuss these and other questions.

INVITED ESTSS PANEL

Conflict and social reconstruction
June 12 | 10:15 – 11:45
Location | Hall Alpha, Radisson Blu

Panel members: Dean Ajdukovic (Chair), Danutė Gailienė (Lithuania), Maja Lis-Turlejska (Poland), Jana Javakhishvili (Georgia), Lars Weisaeth (Norway)

Overview
The panel will look into the mental health and social legacies of trauma caused by wars and other violent conflicts in several European countries since the World War II. The long-term aftermath of such events cuts across different aspects of individual, family and society life. The panelist from Lithuania, Georgia, Poland, Croatia and Norway will discuss how have the traumatized victims of different conflicts in their respective societies been treated in the view of changing socio-political context. How has the understanding of conflict-related traumatization changed over time? Has the legitimacy of trauma of victims changed with transitions of the political context? What are the implications for access to trauma care? Are the internal societal tensions reflected in inclusive trauma services to the people in need of care?

PANEL DISCUSSION

Perspectives on Post-traumatic Growth: Refugees, Combat Veterans and Cancer Patients
June 12 | 12:15 – 13:45
Location | Hall Alpha, Radisson Blu

Panel members: Daniel Brom (Chair), Rolf Kleber, Ruth Pat-Horenczyk

Overview
The phenomenology of PTG was explored in 3 studies of combat veterans, refugees, and cancer patients. The first speaker (Brom) will present an innovative program for Israeli combat veterans aimed at processing the
traumatic experiences and enhancing the PTG process. Data on 350 veterans (before and after the group intervention) will be presented and the relationship between measures of emotional distress PTSD protective factors and PTG will be discussed. The second study (Kleber) compared 100 young refugee adolescents with 100 Dutch adolescents in a variety of social factors, traumatic events, posttraumatic reactions, emotional and behavioral problems and PTG. The third study (Pat-Horenczyk) examined 198 women who cope with breast cancer patients over a two year period. Four post cancer treatment adaptation profiles were found: (1) Distressed; (2) Resistant; (3) Constructive Growth and (4) Struggling Growth. The majority of transitions between different adaptation profiles occurred between six and 12 months after treatment. The three panelists will discuss PTG and its relationship to variables, such as Post-Traumatic Symptoms, Coping Flexibility and Social Support.

**ESTSS INITIATIVE: YOUNG MIND PANEL**

**Meet the Expert**

**June 13 | 09:30 – 11:00**

**Location | Hall Theta, Radisson Blu**

**Panel member:** Paulina Zelviene, Evaldas Kazlauskas (Chairs), Berthold Gersons, Nancy Kassam-Adams, Rita Rosner, Ulrich Schnyder, Siri Thorensen, Stuart Turner, Lutz Wittmann

Panel for Young Minds (YM) in Psychotraumatology field is organized for the upcoming generation of professionals and researchers. Are you interested how to pursue your career? How to publish your articles? Where to publish? What are the main trends of clinical practice or research in traumatic stress? How to find a postdoc position? How these famous professors started their career? All these and much more can be discussed during this meeting with the most distinguished professors of psychotraumatology.
**PRE-CONFERENCE WORKSHOPS**

10 JUNE, 2015

**Venue:** Vilnius University (Universiteto str. 9)

**Registration:** 08:00–15:00

**Lunch:** 13:00–14:00

---

**10:00–17:00**  
**PRE-CONFERENCE WORKSHOP: Integration Makes Sense: Getting to Know Brief Eclectic Psychotherapy for PTSD (BEPP)**

ROOM 403  
A full-day workshop by dr. Mirjam Nijdam, prof. dr. Berthold Gersons, and dr. Miglė Dovydaitienė

---

**10:00–17:00**  
**PRE-CONFERENCE WORKSHOP: Narrative Exposure Therapy (NET): An Evidence Based Treatment for Multiple and Complex Trauma**

ROOM 209  
A full-day workshop by dr. Ruud Jongedijk, dr. Gerdie Eiting, and dr. Tobias Hecker

---

**10:00–17:00**  
**PRE-CONFERENCE WORKSHOP: Psychodynamic Psychotherapy with Trauma Victims: Theory, Technique, Evidence**

ROOM 407  
A full-day workshop by dr. Lutz Wittmann, dr. Robert Bering, and dr. Roderick J. Ørner

---

**10:00–17:00**  
**PRE-CONFERENCE WORKSHOP: Multifamily Therapy (MFT) with Families after Traumatic Events**

ROOM 308  
A full-day workshop by dr. Trudy Mooren and dr. Julia Bala

---

**14:00–17:00**  
**PRE-CONFERENCE WORKSHOP: Screening and Prevention for Children and Youth after Trauma and Violence**

ROOM 214  
ISTSS-sponsored half-day workshop by dr. Nancy Kassam-Adams, and dr. Grete Dyb
### OPENING

**10 JUNE, 2015**

Risk factors for DSM 5 PTSD symptoms in Israeli civilians during and after the Gaza war: A Longitudinal Study. Sharon Gil, Michael Weinberg, Michal Shamai, Pnina Ron, Hila Harel, Keren Or-Chen

16:15–17:45 SYMPOSIUM: Adjustment Disorder as proposed for ICD-11: validity of construct and possibilities for interventions. Chair prof Andreas Maercker

HALL ETA
Adjustment Disorder as proposed for ICD-11: Dimensionality and symptom differentiation. Andreas Maercker, Heide Glaesmer

Epidemiological study of a new Adjustment Disorder diagnostic concept for ICD-11 in general population. Paulina Zelviene, Evaldas Kazlauskas, Jonas Eimontas, Andreas Maercker

Evaluation of self-help intervention for Adjustment Disorders. Rahel Bachem, Andreas Maercker

HALL GAMMA
Additional substance use among Somali refugees in Kenya who chew khat: Comparison of ASSIST results between groups with and without PTSD. Bernice Apondi, Marina Widmann, Abednego Musau, Abdulkadir Hussein Warsame, Maimuna Mohamud Isse, David Ndetei, Clemens Veltrup, Christine Musyimi, Victoria Mutiso, Michael Odenwald

War trauma, alcohol abuse and intimate partner violence in Tamil couples in Northern Sri Lanka. Claudia Catani, Vathsalan Sriskandarajah, Frank Neuner

Brief intervention to reduce khat consumption: Do clients with PTSD show smaller effects? Marina Widmann, Clemens Veltrup, Bernice Apondi, Abdulkadir Hussein Warsame, Abednego Musau, David Ndetei, Maimuna Mohamud Isse, Christine Musyimi, Victoria Mutiso, Michael Odenwald

Developing an integrated treatment for PTSD and khat dependence: results from a case series among Somali refugees. Abednego Musau, Clemens Veltrup, Abdulkadir Hussein Warsame, Maimuna Mohamud Isse, Marina Widmann, David Ndetei, Christine Musyimi, Victoria Mutiso, Michael Odenwald, Bernice Apondi

16:15–17:45 SYMPOSIUM: Risk and protective factors influencing physical health following trauma. Chair dr Erika Felix

HALL THETA
Parent-child relationship quality as a moderator of the influence of hurricane exposure on physical health among children and youth. Erika Felix, Krzysztof Kaniasty, Skkyung You, Glorisa Canino
Somatic health complaints in victims of childhood physical, sexual, and psychological abuse: A follow-up study. Siri Thoresen, Mia Myhre

Migraine and tension-type headaches in survivors of terror compared to a population-based cohort of adolescents: The Utøya and the HUNT study. Synne Stensland, Siri Thoresen, ToRe Wentzel-Larsen, John-Anker Zwart, Grete Dyb

**16:15–17:45 SYMPOSIUM Innovations in treating PTSD and co-morbidity in refugee populations. Chair dr Jeroen Knipscheer**

**HALL LAMBDA 3**

Trauma exposure and refugee status as predictors of mental health outcomes. Jeroen Knipscheer, Marieke Sleijpen, Trudy Mooren, Jackie June ter Heide, Niels van der Aa

Resilience in young refugees. Marieke Sleijpen, Trudy Mooren, Hennie R. Boeije, Rolf J. Kleber

Narrative Exposure Therapy with older refugee adults. Jeannette Lely, Jeroen Knipscheer, Rolf J. Kleber

Day patient treatment for traumatic grief following multiple loss: feasibility of individual grief-focused cognitive behavioral therapy embedded in a group-based treatment program. Sophie Hengst, Paul Boelen, Geert Smid

**16:15–17:45 SYMPOSIUM: Trauma Informed Care and Practice: An emerging treatment for families and youth at risk. Chair dr Gwynyth Overland**

**HALL EPSILON**

The Healing power of emphatic care. Mogens Albek

Trauma informed residential care for children and adolescents with complex trauma: the Neurosequential Model of Therapeutics and its effect on organizational culture. Heine Steinkopf

Accessing resources in transcultural mental health work. Gwynyth Overland
16:15–17:45 SYMPOSIUM: Company model. Chair prof Lars Weisæth

**HALL OMEGA**

The development of a company model for interventions after major accidents and disasters. [Lars Weisæth](#), Ole Jørgen Hommeren

The application of the company model for mental health interventions after a major terror attack. [Ole Jørgen Hommeren](#), Lars Weisæth

The prevalence and trajectory of post-traumatic stress disorder (PTSD) among governmental employees after the 2011 Oslo bombing attack. [Trond Heir](#), Marianne Hansen

16:15–17:45 MEETING: Neurobiology Task Force meeting.
Chair dr Thomaes Kathleen

20:00  |  YOUNG MINDS PARTY
12 JUNE, 2015

08:00–18:00  REGISTRATION AT RADISSON BLU LIETUVA

09:00–10:00  |  KEYNOTE SESSION

09:00–10:00  KEYNOTE LECTURE. Chair prof Ulrich Schnyder
Richard Bryant. Trauma and society: Why social forces are important for trauma response

HALL ALPHA

HALL LAMBDADA (1+2)

HALL ZETA

Long-term legacies: Efficacy of and satisfaction with therapy in an adult post-war generation. Trudy Mooren, Marieke Sleijpen, Niels van der Aa

(1+2) Clinical intervention for traumatized refugee families: Assessment and outcomes. Marloes de Kok, Trudy Mooren

The effects of history of political violence on psychosocial factors in Lithuanian adult population: intergenerational perspective. Paulina Zelviene, Evaldas Kazlauskas

PTSD and depression among local government workers after the Great East Japan Earthquake. Ikki Ueda, Atsushi Sakuma, Yoko Takahashi, Mikika Abe, Ayami Nagao, Hiro Matsuoka, Kazunori Matsumoto

The association between disaster vulnerability and post-disaster psychosocial service delivery across Europe. Michel Dückers, Anke Witteveen, Jonathan Bisson, Miranda Olff

Health service utilization after terrorism: A longitudinal study of survivors of the 2011 Utøya attack in Norway. Lise Eilin Stene, Grete Dyb
### ORAL PRESENTATION SESSION: Resilience and prevention. Chair dr Christian Schopper

**HALL ETA**
- Developing a theory driven, evidence based targeted resilience intervention for the primary prevention of PTSD. **Petra Skeffington**, Clare Rees, Trevor Mazzucchelli
- Resilience of refugees: whether theory meets practice – case of the Polish asylum system. **Katarzyna Oyrzanowska**
- Collaborative resiliency training: towards a culturally-versatile, evidence-based approach to post-traumatic resilience in individuals, groups and communities. **Jonathan Nattel**, Carl Auerbach

### ORAL PRESENTATION SESSION: Complex trauma and dissociation. Chair dr Dolores Mosquera

**HALL GAMMA**
- Treating dissociative disorders and complex trauma with EMDR. **Dolores Mosquera**
- Unique research among clients with dissociative identity disorders in the Netherlands results into practical criteria for therapists. **Vanese Platteel**, Cecilia Kalsbeek
- Dissociative symptoms - trait oder state in the dissociative subtype of posttraumatic stress disorder. **Julia Schellong**, Ilona Croy, Peggy Roever, Kerstin Weidner

### SYMPOSIUM: Neurobiological working mechanisms of psychotherapy and innovative treatment targets for PTSD. Chair dr Kathleen Thomaes

**HALL THETA**
- Effects of dialectical behavior therapy on affect regulation in borderline personality disorder and PTSD. **Dorina Winter**
- Neurobiological mechanisms linking PTSD and substance use disorders: potential treatment targets. **Willemien Langeland**
- Degrading traumatic memories: unraveling neurobiological working mechanisms of EMDR. **Kathleen Thomaes**
- Intranasal oxytocin administration affects amygdala reactivity and functional connectivity in PTSD patients. **Mirjam van Zuiden**, Saskia Koch, Laura Nawijn, Jessie Frijling, Dick Veltman, Miranda Olff

### ORAL PRESENTATION SESSION: Cross-cultural. Chair dr Henrik Nilsson

**HALL LAMBDA 3**
- Trauma of Female Genital Mutilation/cutting; a cultural aspect affecting health conduct. **Chiku Ali**, Bjørn Blomberg, Agnete Strøm
FGM and PTSD: screening and intervention at a traumatic stress clinic. *Eileen Walsh*, Jacqui Gratton

Assessment of war and torture related psychological suffering in a refugee population at a Red Cross Center for Victims of Torture and War in Sweden. *Henrik Nilsson*, Andreas Malm

**12:15–13:45** SYMPOSIUM: Innovative e-mental health tools targeting PTSD screening, intervention and data collection. Chair Christianne van der Meer

- **HALL EPSILON**
  - Screening after Trauma with SAM: Smart Assessment on your Mobile. *Anne Bakker*, Christianne A.I. van der Meer, Annemarijn E. Holmersma, Janneke Broeksteeg, Bart Schrieken, Miranda Olff
  - A Domain-Specific Framework for Collecting Data in Trials with Smart Mobile Devices. *Johannes Schobel*, Marc Schickler, Rüdiger Pryss, Manfred Reichert, Thomas Elbert
  - Pilot RCT of an online intervention to prevent traumatic stress after acute child trauma. *Nancy Kassam-Adams*, Meghan Marsac, Flaura Winston
  - Effectiveness and user satisfaction of a mobile app to reduce posttraumatic stress symptoms in adults: SUPPORT Coach. *Christanne A. I. van der Meer*, Anne Bakker, Annemarijn E. Holmersma, Susanne van Buschbach, Miranda Olff
  - Mobile Crowd Sensing – A New Way of Collecting Data from Trauma Samples. *Marc Schickler*, Johannes Schobel, Rüdiger Pryss, Manfred Reichert

**12:15–13:45** ESTSS INITIATIVE. MEETING: research initiative developing instruments on new ICD-11 diagnoses. Chair prof Lutz Wittmann, prof Andreas Maercker

**14:00–15:00** MEETING: ESTSS General Membership Meeting

**13:45–15:00 | LUNCH**

**15:00–16:00 | POSTER PRESENTATION SESSION: Meet the author**

### ORAL PRESENTATION SESSION: Secondary traumatization. Chair prof Roman Cieslak

**16:15–17:45**

**HALL GAMMA**

- What are the best predictors of PTSD in Portuguese firefighters? **Ângela Maia**, Ricardo Pinto, Sandra Henriques, Cláudia Carvalho, Inês Jongenelen
- Mental health help-seeking amongst police officers with a military background: A theoretical model based on social identity. **Liz Royle**
- Trauma exposure, coping strategies and family support: a Portuguese volunteer firefighters sample. **Rafaela Lopes, Ângela Maia, José Manuel Me**
- Which comes first, job burnout or secondary traumatic stress? **Roman Cieslak, Kotaro Shoji, Magdalena Lesnierowska, Ewelina Smoktunowicz, Judith Bock, Charles C. Benight**

### ORAL PRESENTATION SESSION: Disaster: Long-term effects and coping. Chair dr Robertas Povilaitis

**16:15–17:45**

**HALL THETA**

- Mental health and psychosocial problems of people in Grozny, Chechnya: a brief qualitative study. **Concetta Feo**, Amanda Nguyen, Kyuri Idrisov, Giovanni Pintaldi, Paul Bolton, Judith Bass
- PTSD prevalence among Polish World War II survivors. Lack of social acknowledgement as a risk factor. **Maja Lis-Turlejska**
- 20 years later: long-term consequences of war rape in Bosnia and Herzegovina. **Alena Mehlau**
- The shared traumatic experience of war: Effects on therapists and perceived effects on patients. **Sara Freedman, Rivka Tuval Mashiach**

### ORAL PRESENTATION SESSION: Resilience and social support. Chair Jonathan Nattel

**16:15–17:45**

**HALL LAMBDA 3**

- Networks of resilience: Distributed autonomic regulation theory as a framework for strengthening social support. **Jonathan Nattel, Carl Auerbach, Fabien Dushimirimana**
- Empowering Refugee Parents. **Patrick Oloughlin**
- Working with family members of missing persons - Crisis of exhumation process. **Sopio Tabaghua**
- Relationship amplification following mass trauma. **Robin Goodwin**
16:15–17:45 SYMPOSIUM: Prolonged Grief Disorder. 
Chair prof. Rita Rosner

HALL EPSILON

Armed conflict in Colombia: Rates and risk of prolonged grief disorder among bereaved individuals and relatives of disappeared people. Christine Knaevelsrud, Carina Heeke, Nadine Stammel

Losing a Child: Finding meaning in bereavement. Brigitte Lueger-Schuster, Julia Bogensperger

Treating Prolonged Grief Disorder: A Randomized controlled trial. Richard Bryant, Lucy Kenny, Amy Joscelyne, Natasha Rawson, Fiona Maccallum, Catherine Cahill, Sally Hopwood, Idan Aderka, Angela Nickerson

Long-term follow-up of a randomized controlled clinical trial of integrative CBT for Prolonged Grief Disorder. Rita Rosner, Helga Bartl, Gabriele Pfoh, Michaela Kotoučová, Maria Hagl

16:15–17:45 ORAL PRESENTATION SESSION: Physical health and trauma. 
Chair dr Sally MacLean

HALL TAU

Trauma symptoms, body image and intensity of pain in a Polish sample of men and women suffering from chronic pain. Marcin Rzeszutek, Włodzimierz Oniszczenko, Katarzyna Schier

Trauma-initiated physical disabilities: Essential Components of Psychological Rehabilitation. Sally MacLean

19:00 GALA DINNER
09:30–11:00 | ORAL PRESENTATION SESSION

Clinical Presentation of the Posttraumatic Stress Disorder with and without Traumatic Brain Injuries. **Maja Simonovic**, Grozdanko Grbesa, Tatjana Milenkovic, Misa Radisavljivic

The contributing role of both partners’ empathy to post-traumatic distress following participation in war. **Rachel Dekel**, Alana Siegel, Shimon Fridkin, Vlad Svetlicky

**11:30–13:00** ORAL PRESENTATION SESSION: Effects of childhood abuse. Chair dr **Neringa Grigutyte**

**HALL LAMBDA (1+2)**

Difficulties in emotion regulation and psychopathology in young women: the role of childhood adversities and life-time trauma. **Małgorzata Dragan**

Hair cortisol levels are negatively associated with adverse childhood experiences in pregnant women. **Andria Spyridou**, Martina Ruf-Leuschner, Inga Schalinski, Maggie Schauer, Thomas Elbert

Identifying Adverse Childhood Experiences (ACE’s) in an adult psychiatric in-care population. **Anders Eliasson**, Per-Olof Michel

Adverse experiences and emotional adjustment in HIV/AIDS infected adults in North of Portugal. **Angela Maia**, Mariana Gonçalves

**11:30–13:00** ORAL PRESENTATION SESSION: Interpersonal trauma. Chair dr **Ruth Pat-Horenczyk**

**HALL ZETA**

Lifelong multiple victimization among native and immigrant women in Portugal: Prevalence and emotional adjustment. **Mariana Gonçalves**, Marlene Matos

Does the label matter? - The impact of acknowledged and unacknowledged rape on mental wellbeing. **Kate Szymanski**, Carolyn Springer, Cathereine Lemley

The mediating role of maternal emotion regulation in relational trauma. **Ruth Pat-Horenczyk**

**11:30–13:00** ORAL PRESENTATION SESSION: Loosing a child: recovery and resilience. Chair dr **Vivian Kraaij**

**HALL ETA**

The impact of parents’ grief on their dyadic adjustment after the loss of a child: Testing the mediating effect of posttraumatic growth and resilience. **Sara Albuquerque**, Isabel Narciso, Marco Pereira
Losing your only child! Combing value orientations and grief symptoms to predict autobiographical memories’ disruption in Chinese bereaved parents. **Daiming Xiu, Andreas Maercker**

Effect of a cognitive-behavioral self-help program on depressed mood for women with the loss of a desired child. **Vivian Kraaij, Nadia Garnefski**

DG stories of mothers whose sons went missing–the narratives that help and heal. **Nana Agapishvili, Tina Tsomaia**

**11:30–13:00 ORAL PRESENTATION SESSION: Posttraumatic growth and resilience. Chair dr Emre Senol-Durak**

**HALL GAMMA**

Psychometric properties of an integrated psychological growth and problems scale. **Andreas E. Nordstrand, Sverre Hougnsæs, Jon G. Reichelt, Hans Jakob Bøe**

Post-traumatic growth in MVA perpetrators. **Agata Wezyk, Dorota Merecz**

The psychological characteristics of Ahıska Turkish elderly with a history of deportation, forced migration, immigration who reside in the US. **Mithat Durak, Dena Shenk**

Posttraumatic growth among individuals with bereavement experience: United States and Turkey comparison. **Emre Senol-Durak, Richard Tedeschi**

**11:30–13:00 ORAL PRESENTATION SESSION: Political violence and inter-generational trauma Chair prof Danute Gailiene**

**HALL THETA**

Resilience in 2nd and 3rd generation of politically repressed families in Lithuania. **Egle Mazulyte, Monika Skeryte-Kazlauskiene, Danute Gailiene**

Psychotherapy in the time of social and moral challenges: to identity through trauma. **Natalia Nalyvaiko**

Tracking totalitarian trauma in contemporary Georgia: A case study. **Jana Darejan Javakhishvili**

**11:30–13:00 ORAL PRESENTATION SESSION: Treatment.**

**HALL LAMBDA 3**

Sustainability of evidence based practice interventions for Post traumatic Stress Disorder in an Australian veteran mental health service. **Loretta Poerio**

Event-related potentials and EMDR treatment of PTSD. **Raynaud Philippe**
11:30–13:00 ORAL PRESENTATION SESSION: Treatment of complex trauma. Chair dr Ethy Dorrepaal

HALL EPSILON
Program of group therapy for patients who experienced complex, intergenerational trauma. Beata Rusiecka, Anna Awtuch, Marlena Świdrowska

In clinical practise manualized treatments are difficult to apply: Do we have to question them as gold standard? - Evaluation results of an alternative multi modular program. Silvan Weber

Evidence-based treatment for adult women with child abuse-related Complex PTSD: a quantitative review. Ethy Dorrepaal, Kathleen Thomaes, Adriaan Hoogendoorn, Nel Draijer, Dick Veltman, Ton van Balkom

11:30–13:00 ORAL PRESENTATION SESSION: Creative therapy of trauma. Chair Karin Alice Schouten

HALL TAU
The Effectiveness of Art Therapy in the treatment of traumatized adults: A Systematic review on Art Therapy and trauma. Karin Alice Schouten, Gerrit J. de Niet, Jeroen W. Knipscheer, Rolf R. Kleber, Giel J. M. Hutschemaekers

Lecture and film: Expressive Arts in Transition (EXIT): An early intervention study with unaccompanied minor asylum seeking boys. Melinda Ashley Meyer DeMott

11:30–13:00 CLOSING OF THE CONFERENCE

HALL BETA

13 JUNE, 2015
### Session A: Assessment, Comorbidity, Complex Trauma

| A01 | Attention and processing of affective stimuli in anxiety disorders. Emotional Stroop test in PTSD. | Dawid Scigala |
| A02 | Validating the Diagnostic Infant and Preschool Assessment using a Danish Trauma Sample. | Ask Elklit, Sille Schandorph Løkkegaard |
| A03 | Inventory of Prolonged Grief - Children: Portuguese version and psychometric characteristics. | Paula Leal, Vera Almeida, José Rocha |
| A04 | Adding Complexity: Assessing the Dissociative Subtype of PTSD. | Marloes Eidhof, Jackie June ter Heide, Eric Vermetten |
| A05 | ICD-11 Trauma Questionnaire for PTSD, C-PTSD and BPD symptoms: Portuguese version. | Célia Soares, Mónica Sá, Ângela Maia, José Rocha |
| A06 | Spanish version of the Peritraumatic Dissociative Experiences Questionnaire (PDEQ): Psychometric Properties. | Mar Gómez-Gutiérrez, Violeta Fernández-Lansac, María Crespo, José Rocha |
| A08 | Risk factors for suicide attempts in the total population of Faroese eighth graders. | Ask Elklit, Tóra Petersen |
| A09 | Trauma exposure and traumatization in Ugandan youth. | Ask Elklit, Lise Mandrup |
| A10 | Adult attachment styles and the psychological response to infant bereavement. | Ask Elklit, Mark Shevlin, Siobhan Murphy, David Boyda |
| A11 | Assessing DSM-5 latent subtypes of Acute Stress Disorder, Dissociative or Intrusive? | Cherie Armour, Maj Hansen |

**Meet the Author**

**June 12, 2015 | 15:00 – 16:00**

**Location | Radisson BLU Hotel Lietuva, Lobby**

Posters should be set up on June 12 between 08:30 and 10:00. Posters should be removed no later than 18:00 on June 12.
